## Morgellons Protocol

### Background Information – The Cabal’s Plan to Destroy Humanity Through Chemtrails and the AI Invasion

The most powerful part of the cabal’s plan to infect us with disease and take over our bodies, turning us into AI, was through the Secret Operation Indigo Skyfold program – CHEMTRAILS

*The Alliance has taken over and chemtrails we see now – in the US – are actually good, delivering HCQ to heal the planet and us.*

**However, looking back...because we still need to heal from this...let's talk about what chemtrails contained and their purpose.**

- Chemtrails contained an extremely poisonous brew including: barium, nano aluminum-coated fiberglass [known as CHAFF], radioactive thorium, cadmium, chromium, nickel, desiccated blood, mold spores, yellow fungal mycotoxins, ethylene dibromide, and polymer fibers.
- Barium adversely affects the heart. Aluminum has a history of damaging brain function.
- With these poisons came a dramatic increase in cardiac deaths, upper respiratory illnesses, asthma, chronic bronchitis, lung cancer, and often multiple chronic illnesses, brain injury, and inexplicable rise in sociopathic behavior, and the **deterioration of cognitive function.**
- **Chemtrails contained nanobot polymers that were ingested by human beings. These polymers are microscopic and enters the host through the air, water and our food supplies.**
- These particulates are designed to compromise immune systems with time-delayed effects.
- The chemtrails can induce mood changes
- It is known that about 80% of the exposed population will eventually succumb and their compromised immune systems will eventually lead to their demise.
- From the models, it is theorized that the remaining 20% will be increasingly docile and relatively easy to control.

# What is Morgellons?

Wikipedia Definition → **what they want you to think it is...**

- Morgellons is the informal name of a self-diagnosed, **scientifically unsubstantiated** skin condition in which individuals have sores that they believe contain fibrous material. ...the general medical consensus is that it is a form of *delusional parasitosis*
- *Delusional parasitosis* is a **mental disorder** in which individuals have a persistent belief that they are infested with living or nonliving pathogens such as parasites, insects, or bugs...

## What Morgellons REALLY is:

- Micro spiders that start as puff balls in the body. When they erupt, it release the AI "spiders." It shows up as:
  - Lyme's Disease
  - Epstein Barr Disease
  - Shingles
  - Lupus
  - Lou Gehrig's Disease
  - Parkinson's (can also be severe calcium deficiency)
  - Dementia / Alzheimer's (can also be aluminum toxicity)
  - Other Form of Herpes (which is a virus plus AI)
  - Leaky Gut
  - Extreme hunger during a cleanse (or other times)
  - Extreme itching
  - Sensations of body parts moving...
  - Glows under a black light when released into water (from cleanses, zapper technology to kill it)
  - Epilepsy
  - Bell's Palsy
  - Psoriasis
  - Brain Fog
  - Tiredness with plenty of sleep, generally tired, low energy, lack energy to work out, etc.
  - Don't heal quickly
  - Premature aging
  - No longer able to remember your dreams
  - Runny nose (in cold weather, after eating) – *sign of biofilm*
  - Crusty eyes first thing in the morning - *sign of biofilm*
  - Prone to diarrhea, can be with clear liquid - *sign of biofilm*

- Phlegmy – lung congestion, frequent throat clearing, mucus-y cough – *sign of biofilm*

**What does it look like? Here are a couple examples:**

Morgellons disease is often associated with skin issues, numbness, and tingling.

Lyme disease can cause and other issues associated with hair loss, teeth, and the organs. Lyme's disease can trigger multiple symptoms and make the body more susceptible to other diseases, viruses, and syndromes.

**Some of the symptoms of Morgellons disease are:**

- **Crawling Sensations Under the Skin** - biting or stinging sensations.
- **Colored, Thread-Like Fibers and Granules Under the Skin** - The fibers are black, clear, white, or blue or less frequently, red, pink, green, or gold, with a slightly metallic look (metals & silicon).
- **Fatigue** - Intense fatigue that is typically chronic and persistent.
- **Vision Issues** - such as blurred vision and floaters.
- **Tinnitus** - or ringing in their ears. *(Or it could be God speaking saying that you're off your path!)*
- **Muscle and Joint Pain** – Inflammation in the joints of the hips, knees, elbows, shoulders and more; back pain, leg pain and even stiffness in the joints.
- **Brain Fog** – Mild to severe; common complaints are the inability to focus, poor memory recall and sometimes confusion.

***Currently, nearly everyone is affected by Morgellons to some degree.***

# Morgellons Protocols

- Protocols for Morgellons depends on what symptoms are presenting. **If there is no current outbreak, MMS is the first step.**
- However, if you haven't done a **saltwater / Liver/Gallbladder cleanse**, and if you aren't in an acute situation, start with the cleanse prior to doing the MMS protocol. This will prepare your body to handle the massive release of toxins from using MMS and avoid a Herxheimer reaction (nausea, severe headaches, etc.).
- **If you have skin eruptions, use the topical protocols right away -- Essential Oils, Ivermectin and/or Alfalfa Tablets.** These will be explained later.
- **If you have symptoms described above that are signs of biofilm, do this protocol first.** The protocol will be explained later.
- **Mud Mix** is excellent for Morgellons and fungus. Most everyone should do the mud mix protocol, since most everyone has AI. We will talk about the mud mix protocol later.

## Other Suggestions

- Ingest only distilled water or highly purified water (like the Alexapure – on Rick's main website [blessed2teach.com](http://blessed2teach.com)) and use a high-quality shower filter that removes chlorine, fluorine, and small nanotech particulates.
- Start getting probiotics regularly (from naturally fermented foods or as a supplement) along with CoQ10.
- For severe pain, it is very powerful to rob them of the electrical and mental energies. We are working on a recommendation for a rife-like machine (there is one EMP device in the references at the end of this document). It can also be done by studying, writing and hard physical workouts.
- Nanotech thrives on quick energy (carbs, sugars, alcohol), so switching to a Keto diet or a Sheppard's diet is very helpful.
- It is also important to eliminate fluoride that comes from tea (from the camelia sinensis plant); many personal care products – “alum” in toothpastes, deodorants, etc.; dental fluoride treatments; and water.
- Ionic foot detox baths can be very helpful, something like this one. NOTE – only use ionic baths that can be set to pulse POSITIVE ions as this is what is healing for our bodies. (Negative ions are good for plants; positive for human bodies.)

## Other important considerations:

- ⇒ **DO NOT take these when you are under attack: Iron, Boron, Silicon, Magnesium and MOST importantly COPPER.** Note: **some** AI feed on boron so using borax would have a negative effect; test before using borax (*or any of the above minerals*) by consuming a pinch, and if you feel worse, immediately do the Mud Mix protocol.
- ⇒ **DO NOT use Biofeedback mechanisms UNLESS you are sure you KNOW what you are doing.** This nearly killed Gene. It can put the above mineral elements into the body in a pure energy state (4D) that feeds the ADULT AI at the 4th density. This can be dangerous.
- ⇒ **Test music**, even 432hz music – give it 5-10 minutes; if you feel better listening to it, great, if not, find a different 432hz song.
- ⇒ **Avoid and remove from your home all LED light bulbs. These bend, twist and damage the DNA.** DNA can be repaired with DMSO, but avoid LED bulbs in your home, and limit exposure to electronics. CFL lights are incandescent and ok to use. Fluorescent lights are okay if you are able to get fresh sunlight – 20 minutes of sunlight for every 4 hours of exposure.
- ⇒ **H2O2 (hydrogen peroxide)** internally or in a mister can empower Morgellons. If you'd like to know how your body reacts to H2O2, test a tiny amount, wait 24 hours, and if you feel bad, don't take it. You may find that you're okay with it. Our bodies will react differently to different elements.
- ⇒ **Morgellons feeds on negative emotions.** On the other hand, the POSITIVE ions generated by a fire are healing for the body. Trees and plants feed on negative ions. We benefit from positive ions.
- ⇒ **Heavy use of antibiotics fuel AI.** MMS is an option to use instead as are some herbs that contain natural antibiotics, such as goldenseal.

# Biofilm Protocol

AI disintegrates your cells and tissues and then covers itself with a protective biofilm so that your own immune system will not attack the AI, thinking it's you. That's how autoimmune diseases start.

Those suffering from constant congestion and coughing up phlegm usually also have vast amounts of biofilm build up from an AI attack. Other signs of biofilm include a runny nose from cold or eating, being prone to diarrhea (may expel a clear liquid), build up in the eyes especially first thing in the morning, lung congestion, clearing throat constantly.

Most virus and bacteria also create a biofilm from your own body to do the same thing. So, breaking up the phlegm is very important to help the body's immune system get rid of what is attacking your body.

## To breakdown the biofilm, use the following:

- Once in the morning and once at night (eat as normal but avoid foods that Morgellons feeds on, mentioned previously)

- Nattokinase, 100mg
- 12 drops each of these tinctures -- certified organic alcohol-free; Gaia Brand is great. NOTE: these are listed in order of importance in case you're not able to get all of them:
  - Mullein (*Mullein can deal with a wide range of respiratory issues, ranging from biofilm/phlegm build up, all the way up to and including Tuberculosis*)
  - Burdock Root
  - Milk Thistle
  - Yellow Dock
  - Nettle Leaf
  - Sage
  - Oregano Leaf
  - Echinacea
  - Goldenseal root
  - St. John's Wort (*wort means herb*)
- As desired during the day drink Traditional or Mint Yerba Matte Organic Tea or an organic herbal tea (peppermint or a blend of the above) if you wish to avoid the caffeine contained in Yerba Mate (about ½ the amount of coffee). Steep, covered, with boiling water for about 15 minutes).
- Continue this protocol for as long as needed – until symptoms are gone. This can be a lengthy healing process, as long as a year if symptoms are severe.

# Mud Mix Protocol

Mud Mix is excellent for Morgellons and for fungus – especially if you don't have mushrooms in your diet, which break down fungus and other inorganic material (like AI, which are metal based).

Fungus shows up as seasonal-type allergies that occur out of season, candida infections (white coating on tongue can be a sign of fungus), and can even lead to dementia, Alzheimer's, Parkinson's, and Muscular Sclerosis/Dystrophy if the fungus penetrates the connective tissue containing cerebral spinal fluid, which surrounds the spine and brain.

Fungus and/or mold are inherent components of Morgellons which operates on a combination of fungus, mold or bacteria and AI. Bacteria and mold create biofilm which creates a "shield" and prevents AI from being detected and removed by the body. Because nearly everyone has AI (Morgellons) it is safer to assume that mud mix is needed to rid the body of the AI.

MMS and Mud Mix work hand in hand. MMS deactivates, shuts down ("kills") the AI (Morgellons) and fungus. Mud Mix shreds the AI so it can't reactivate.

## When / how to take Mud Mix

It's safe to assume that you need mud mix if you have any of the symptoms of Morgellons (including biofilm symptoms), and with most all diseases, it's best to do the cleanses. (See the saltwater & liver/gallbladder cleanse protocol, which recommends a series of 12 cleanses per 3-4 weeks plus maintenance cleanses.)

Incorporate the Mud Mix into your cleanse, taking it the last 3 days leading up to the 7<sup>th</sup> day cleanse (i.e. the last 3 of the 6 days of apple juice). You can take it with the apple juice to help it taste better, or a mixture of water and apple juice. Drink all at once; don't sip the mud mix throughout the day.

Do the mud mix the day after the cleanse to help clean out any gunk from your system afterwards.

If symptoms are severe, take mud mix 3 times per day for 3 days or as long as needed.

## Ingredients:

- Food Grade Diatomaceous Earth – 1 teaspoon
- Food Grade Zeolite (powder, not liquid) – 1 teaspoon
- Food Grade Bentonite Clay (also known as Aztec Clay) – 1 Tablespoon
- Food Grade Activated charcoal – 1 Tablespoon

Combine the four powders and mix in distilled water until it's a consistency that you are able to drink. If you have Morgellons or fungus take Mud Mix for as many days as needed until you feel better or the symptoms go away.

- **Activated charcoal** absorbs toxins
- **Diatomaceous earth** and **zeolite** shred nanotech and parasites
- **Zeolite** and **Bentonite clay** remove nuclear metals and heavy metals

Note: It is highly recommended to use **distilled water**. If you don't have easy access to it, use the best water you can (like the **Alexapure** sold by Rick at blessed2teach.com). **DO NOT use tap water!**

Here are possible sources for each of the powders.

**Food grade diatomaceous earth** can be found locally at garden supply stores, tractor supply, Home Depot and online at [Chewy.com](https://www.chewy.com) (animal supply store) and here is one option from Amazon: <https://www.diatomaceousearth.com>

**Food grade activated charcoal** - there are lots of options. [This one is organic](#). If you prefer not to use Amazon, [here is another option](#).

**Food Grade Zeolite.** [This looks like the best option for zeolite.](#) [There is a great article available on their website too.](#)

**Food grade bentonite (Aztec) clay.** [Fossil Power Bentonite Powder is a good option.](#)

[Clay](#)

# MMS Protocol

MMS, The Master Mineral Solution aka “The Universal Antidote”

**To understand more about MMS, how to use it, and for all of Jim Humble’s protocols – including specific protocols for viruses and more – we STRONGLY encourage you read his book in its entirety before using MMS.**

MMS is a general acronym term used throughout the world for chlorine dioxide or “activated sodium chlorite.” It requires a food-grade acid to “activate it” and make MMS1. There are several acids that can activate MMS, including fresh squeezed lemon or lime juice, vinegar or citric acid. Our recommendation is to use HCl (Hydrochloric acid) as the activator. It is the most effective and the most gentle on the body.

## Is MMS Safe?

The MMS group had no deaths while the control group (placebo) had THREE deaths. This video provides research details, testimonials and more:

<https://theuniversalantidote.com>. NASA called MMS a panacea.

## What MMS can help with:

*“...[MMS] has proven to restore partial or full health to hundreds of thousands of people suffering from a wide range of diseases, including cancer, diabetes, hepatitis A, B, C, Lyme disease, MRSA, multiple sclerosis, Parkinson’s, Alzheimer’s, HIV/AIDS, malaria, autism, infections of all kinds, arthritis, acid reflux, kidney or liver disease, aches and pains, allergies, urinary tract infections, digestive problems, high blood pressure, obesity, parasites, tumors and cysts, depression, sinus problems, eye disease, ear infections, dengue fever, skin problems, dental issues, problems with prostate (high PSA), erectile dysfunction, and many others. The MMS protocols in this book have also been used to overcome addictions to alcohol and drugs, such as heroin and others, without side effects, and the list goes on. This is by far not a comprehensive list. I know it sounds too good to be true, but according to the results we have seen from around the world, I think it’s safe to say when used properly, MMS has the potential to overcome most diseases known to mankind.” – Jim Humble*

## What MMS is NOT:

**MMS IS NOT BLEACH.** MMS, or chlorine dioxide (ClO<sub>2</sub>), and table salt (NaCl) both contain the chlorine (“Cl”) element in a form that is *not* dangerous and is in fact helpful. Household bleach contains sodium **hypochlorite** (NaClO), which contains Cl in a different form that can be dangerous.

## The MMS Protocol – **Please read Jim Humble’s book for detailed use information!**

- **Starting procedure** – this shows how to build up to the 1 drop and eventually 3 drop dosage (every 8 hours)
- **Protocol 1000** (Using MMS1, activated MMS only)
- **Protocol 1000 Plus** – adds **DMSO** which drives MMS healing deeper into the cells and **RESTORES DNA!**
- Protocol 2000 (cancer protocol)
- Protocol 3000 (life threatening protocol)
- Mold/Fungus Protocol → we recommend the Mud Mix protocol, and we DO NOT recommend using bubbly water due to the phosphates, which lead to kidney stones
- Many, many more specific protocols (for cough, skin, eyes, douche (UTIs), lungs, **vaccine**, malaria and other viruses, insect bites & stings, food poisoning, heart attack, one week to live emergency protocol, protocols for children and animals, etc.)
- If you have Morgellons or fungus, use MMS in the 3 weeks in between your cleanses until symptoms are gone. Or follow one of Jim Humble’s protocols that suits your situation and particular needs (eg. For virus, vaccine, one-week-to live or other emergencies and specific health needs).

# Morgellons Skin Outbreak – Topical Protocols

## Essential Oil Mixture

This solution will help with the intense burning, itching and pain that Morgellons can create and help heal these painful sores and lesions.

**15 drops of each of the following organic essential oils:**

- Melissa (Lemon balm)
- Eucalyptus
- Oregano
- Tea Tree (Melaleuca)

**10 drops of each of the following organic essential oils:**

- Rosemary
- Pine Needle
- Sage (or Clary Sage)
- Juniper Berry
- Lavender (optional for calming effects)

**2-5 drops of organic clove essential oil** (as desired; optional for analgesic/numbing, antimicrobial and antiseptic)

**Dropper-full of Tincture of White Peony Root (Bai Shao)**

**Long Yan Rou** (good internally for parasites)

**Oil for dilution:**

- 2-3 tablespoons of Extra Virgin Olive oil to dilute the strength of the above mixture, OR if you want a very strong mixture decrease the dilution by trying 1 tablespoon; adjust to your preference and needs with experience. Because of the current problems with MANY brands of Extra Virgin olive oil being cut with unhealthy, inferior oils (peanut oil, soybean oil and even worse), **Organic Avocado Oil** is a good substitute.

You can test your olive oil to see if it is pure, by putting a few tablespoons in the fridge and seeing if it solidifies after 24 hours. If it doesn't, it's not pure.

## Ivermectin Paste

Ivermectin paste is used internally for horses and other animals to remove parasites. This protocol uses it topically for Morgellons. *(It can be taken internally – make sure to determine the proper dosage for your weight).*

You can find it at animal supply stores, farm & county stores, etc. in the horse and hamster sections. [Here is one option to purchase it online.](#)

### Instructions:

- Clean the affected area with a mild soap or soap-free cleanser (Dr. Bronner's) and pat dry. Apply a pea-sized amount, about once a day, in a thin even layer. Wash your hands well after applying.
- Avoid getting it in your eyes, nose, or on your lips. If this happens, rinse the area with plenty of cool water.
- Use this medication regularly to get the most benefit from it. To help you remember, use it at the same time each day.
- Do not use large amounts or apply more often than needed. Your condition will not clear faster, and the chance of side effects may be increased. It may take several weeks of continued use before you see improvements.
- Tell your doctor if your condition does not improve or if it worsens.
- [Here the link with these instructions.](#)

Someone recently asked about ivermectin tablets. That is an option – a great one for COVID and other viruses. [Here is more information about it.](#)

## Alfalfa Tablet

For those having massive skin and body surface problems and infection!

Items needed:

- **Non-Chloring Powdered Laundry Detergent with Colorsafe or Joy Soap**
- **Alfalfa Tablets – Hamster pellets great work too!**

Here is this person's amazing story and solution:

*I have been Morgellons sufferer for over ten years. ... Well, one day ... I was filling the bath and I was pretty dirty from housecleaning so I put some Sun powdered laundry detergent with colorsafe bleach into the water, **just a tad**, because it really cleans the skin.*

*Anyway, I left the bathroom for a minute or two and heard a crash that sounded like one of my cats getting into something. When I returned nothing seemed amiss, so I slid into the water for a soak.*

*Everything seemed normal until the bubbles parted, and I got the sight of a Morgellons sufferers' lifetime dream: those black and grey specks MIGRATING OUT OF MY SKIN AS FAST AS THEY COULD IN DROVES BY THE HUNDREDS FROM EVERY SQUARE INCH OF MY BODY!!*

*... I also noticed several large oblong things "dissolving" in the bottom of the tub. I picked one up, and it was **an alfalfa tablet**. Then I noticed the bottle on the counter next to the tub was overturned, and about 25 of them had fallen into the water! They were the cause of the migration of all things Morgellons out of my skin in a fantastic migration for about an hour!*

This works is because the Morgellons leaves the body to go to the alfalfa because it sees the alfalfa as a more vibrant source to feed on.

**Use the hottest bath water you can tolerate** as nanotech does like heat. It's also good in general to keep yourself warm and body areas warm – even while you sleep to help it from gaining power while you're sleeping!

[Get more information here.](#)

## PRAYER

Finally, use your best discernment and intuition, and pray for guidance. Know that God is the ultimate authority.

**Prayer is massive for taking authority over it and demanding it to leave!**

I Bring forth this prayer from Rick

He that dwelleth in the aid of the Most-High, shall abide under the protection of the One True Living God of All Creation. He shall say to the Lord: Thou art my protector, and my refuge: my God, in him will I trust. For he hath delivered me from the snare of the hunters: and from the sharp word. He will overshadow thee with his shoulders: and under his wings thou shalt trust. His truth shall compass thee with a shield: thou shalt not be afraid of the terror of the night.

Of the arrow that flieth in the day, of the business that walketh about in the dark: of invasion, or of the noonday devil. A thousand shall fall at thy side, and ten thousand at thy right hand: but it shall not come nigh thee. But thou shalt consider with thy eyes: and shalt see the punishment of the wicked. Because thou, O Lord, art my hope: thou hast made the Most- High thy refuge. There shall no evil come to thee: nor shall the scourge come near thy dwelling.

For he hath given his angels charge over thee; to keep thee in all thy ways. In their hands they shall bear thee up: lest thou dash thy foot against a stone. Thou shalt walk upon the asp and the basilisk: and thou shalt trample under-foot the lion and the dragon. Because he hoped in me I will deliver him: I will protect him because he hath known my name. He shall cry to me, and I will hear him: I am with him in tribulation, I will deliver him, and I will glorify him.

I will fill him with length of days; and I will show him my salvation.
